I am wondering why it takes 1 1/2 weeks to get results for well users. I convinced a friend to get their well water tested and there was only one place to get it tested in San Juan Count New Mexico. The live at Cedar Hill, between Durango and Aztec and this was way out of their way to go to get it tested. Then to be told 1 1/2 weeks for results. I'm sorry but there is going to be problems with this type of service provided for the residents that are affected.

Please, Please, Please do better and take care of these residents.
